

## The Year 7 Curriculum Enrichment Entitlement 2025/26

The following curriculum enrichment offer is the current one the Year 7s will experience. However, as the academic year progresses other opportunities will be available to them. Where they experience fewer activities under one of the pillars they will do more in subsequent years. Across OAT academies, we aim for students to experience at least 80 hours of curriculum enrichment every year.

In addition to these experiences, we offer a full assembly and form programme that both supports and extends our curriculum enrichment programme.

**Experience** – at ODA, we want students to meet many different people from different walks of life; visit amazing places; and try things that they have never done before.

Experience	Category	Detail
Geography	School based event	Exposure to UK cultural events and traditions
History	Speaker and workshops	History Assemblies
All subjects	Speaker and workshops	Enrichment Days (December and July)

**Think** –at ODA, we want students to develop a broad general knowledge; to engage critically with topical or contentious issues; and to debate the merits of different points of view.

Think	Category	Detail
